Nail enhancements or 'extensions' as they are most commonly called come in a variety of shapes and styles; there really is something to suit everyone. We have outlined the most common options below. You will also find a 'shape guide' on our website which you may find helpful.

Acrylic Overlay	from £30
This is acrylic applied on your own natural nails to give you extra strength.	
Acrylic Extensions	from £40
A tip will be added to your natural nail to give extra length and acrylic will be applied over to strengthen.	
French Ombre Acrylic Extensions	from £45
The method of application is the same as above, however we will blend two different acrylic colours to give you a natural looking ombre fade.	
Hard Gel Overlay	from £30
This is a hard setting gel applied on your own natural nails to give you extra strength.	
Gel Extensions	from £40
A tip will be added to your natural nail to give extra length and hard gel will be applied and set to strengthen.	
Sculpted Nail Extensions	from £40
These can be created with Acrylic or Hard Gel and will add length to your natural nail without the use of a tip. We will place a form under your natural nail plate and we will use this to create your desired length and shape.

IBX

STRENGTH AND CONDITIONING TREATMENT

This treatment is used to improve nail plate integrity under any Gel Polish coating by fusing together the top layers of your nail. It is also used to target natural nail imperfections and weaknesses that prevent natural nails from growing long. Although this treatment targets weak or damaged nails, it is also highly recommended for the maintenance and care of strong and healthy nail plates and to protect your nails from over exposure to any other products.

IBX INITIAL APPLICATION	£10
This is the first step to keeping your natural nails strong and healthy. This treatment can be applied before the application of gel polish, or alone on your natural nails.	
IBX TOP-UP	£5
This treatment is recommended at the start of your next treatment for guaranteed natural nail improvement. It works successfully with Nail Polish, Gel Polish and Extensions and ensures your natural nails remain strong and healthy.
